

# Creating Value

## Teamwork propels efficiency.

There is no better team than the one in Nigeria LNG Limited (NLNG). A collection of excellent minds fused together to produce value.

It starts from the top with a unique shareholder blend of National and International Oil Companies, namely Nigerian National Petroleum Corporation (49%) which ensures that value is returned to our great country through our vision of helping to build a better Nigeria; and Shell Gas B.V. (25.6%), Total Gaz Electricite Holdings France (15%), and Eni

Internacional N.A. N. V. S.à.r. l (10.4%), who are responsible for the transfer of knowledge on LNG technology and operations.

Together, we're building a global company helping to meet industrial and residential energy demands across the world.

**Collaboration yields sustained returns and dividends. Nigeria LNG values the partnership of every stakeholder in pursuit of our mission and vision.**

...helping to build a better Nigeria
